performance and cocktails

These re-issues include pretty much all the B sides - a lot of which were recorded in hotel rooms and in studios on the road back in the day when every single we released had 2 formats, meaning about 6 songs for every single release! The live tracks are very raw, sometimes the first performances for radio, sometimes airing unfinished tracks for a reaction. In brief, the rarities are a glimpse of the band finding its way on its first world tour, a lot of tracks are the live radio mixes of the time, never tweaked or remixed, it's what went out live on air, so we hope you enjoy the unpolished experience, imperfections and all.

The artwork has been taken from my original lyric books of the time.

The unseen pictures, we dug deep from the archive to find you (and us!) some hidden gems. So pour yourself a cold one and step back in time with us!
